

LIST OF TABLES

The relationship between economic policy, energy policy and the treatment of declining mining areas in Hungary

Table 1	Energy production and consumption of Hungary, 1986	47
Table 2	Yearly average growth rate of Hungarian economy, 1970–1988	48
Table 3	Energy consumption in Hungarian industry, 1986	48
Table 4	Energy consumption of production, 1982	49
Table 5	Structural change in energy production	49
Table 6	Maximum and minimum of proportion in industrial investment by branches in Hungary, 1960–1987	50
Table 7	Change of total energy consumption, 1972–1982	50
Table 8	Estimates of Soviet and Eastern European convertible currency debt, 1982–1988	51

The industry of the Gdańsk agglomeration and the environmental hazards of the region

Table 1	Industrial pollution of environment in towns of the Gdańsk agglomeration, 1985	61
Table 2	Dynamics of environmental pollution in the Gdańsk voivodship emitted by industry, 1975–1987	61
Table 3	Emission of industrial pollution in the Gdańsk agglomeration from plants with the highest environmental hazards, 1982–1987	63
Table 4	Characteristics of municipal sewage treatment plants in the Gdańsk agglomeration, 1986	64

Tertiary employment in some Central European countries about 1980

Table 1	Structure of gross employment in some Central European countries about 1980	70
Table 2	Structure of gross employment in some Western countries, 1979	71
Table 3	Structure of service employment in some Central European countries about 1980	75
Table 4	Structure of employment in market services about 1980	77
Table 5	Structure of employment in socio-cultural and civil services about 1980	79
Table 6	Classes of employment structures applied in the typology of territorial units	83

Availability of infrastructure in rural communal centers in Poland

Table 1	Frequency of appearance of agricultural service outlets in communes and commune centers	89
Table 2	Frequency of appearance of agricultural service outlets (all types) according to the size classes of commune centers	90
Table 3	Degree of concentration of kindergarten places according to the size classes of commune centers	91
Table 4	Degree of concentration of pupils in primary schools according to the size classes of commune centers	92
Table 5	Number of primary school pupils per classroom according to the size classes of commune centers	92
Table 6	Degree of concentration of medical consulting rooms according to the size classes of commune centers	93

Enterprises of local town councils in Hungary

Table 1	Barrier factors of local council enterprises	112
